

TURFGRASSES

BLUEGRASSES	UNIT	New lawn 2-3 lbs./1000 sq. ft., overseeding use half rate.
Arrowhead	50 lb	Drought stress standout, dark green, superior spring greenup & winter color, excellent leaf spot resistance.
Award	50 lb	High density, intense dark green color, excellent leaf spot & summer disease resistance, excellent for low cut.
Action	50 lb	Quick to germinate & establish, durable with deep, aggressive rhizomes, excellent drought recovery. Great for low maintenance. Early spring green-up.
Beyond	50 lb.	Stands up to heat & drought with a carpet-like turf that is aggressive and thrives in sun or shade.
Brooklawn	50 lb	A reliable performer providing an attractive turf at an economical price. (Shamrock type.)
Common 85/80	50 lb	The most economical grade of bluegrass, free of undesirable grass seeds.
Common 98/85	50 lb	Economical grade of bluegrass with a high purity and no undesirable grass seeds.
Corsair	50 lb	This variety produces a dark, fine turf that is highly resistant to rust & powdery mildew (a must for turf in the shade), with early spring green-up.
Fortuna	50 lb	Quick to establish with outstanding seedling vigor, very wear tolerant, good early spring green-up, BMVG type.
NuBlue Plus	50 lb	This rich dark green variety provides a fine dense turf under high or low maint., with excellent heat & drought performance, & improved seedling vigor.
Everglade	50 lb	The latest in the super-elite Glade family w/improved rust resistance, excellent heat & drought tolerance, good shade tolerance.
Mercury	50 lb.	Dark green, medium density, very good heat and drought tolerance, shade tolerant, very good disease resistance. Compact America Type, P-105 cross.
Triumph Bluegrass Blend	50 lb	A high quality mixture of top performing proprietary Kentucky bluegrass varieties provides a beautiful dark green lawn.
Triumph Bluegrass Blend	25 lb	
Volt	50 lb	An attractive, reliable workhorse variety, featuring early greenup & good cool weather color retention, vigorous establishment, & superior wear tolerance.

FESCUES, FINE	UNIT	New lawns 5-6 lbs./1000 sq. ft., overseeding use half rate.
Chewings Intrigue	50 lb	Sun or shade, low maint., excellent turf quality, dark green, endophyte enhanced, as well as enhanced weed suppression.
Chewings Fescue, Radar	50 lb	A new variety with superior NTEP performance and excellent disease resistance. Fine, dense, dark green, even under low maintenance in sun or shade.
Chewings, Zodiac	50 lb	Top NTEP performer w/superior stress tolerance. For sun or deep shade. Low maintenance. Endophyte enhanced.
Creeping Red Edgewood	50 lb	Improved variety for fine textured low maintenance turf in sun or shade.
Creeping Red VNS	50 lb	Economical grade of creeping red fescue. Low maintenance.
Hard Fescue Beacon	50 lb.	Top NTEP hard fescue ratings for turf quality, density, seedling vigor and red thread resistance.
Sheep Fescue Marco Polo	50 lb	Fine and low growing with a unique blue-green color, well adapted to poor soils in sun or shade.
Mixture Triumph Low-Gro	50 lb	Low maint. mix of proprietary hard, chewings, and creeping red fescues for use in sun or shade. Attractive yet ideal for harsh sites, nursery rows.
Mixture Triumph Low-Gro	25 lb	
FESCUES, TALL	UNIT	New Lawns 6-8 lbs./1000 sq. ft., overseeding use half rate.
Bullseye	50 lb	Rated #1 in traffic tolerance in the NTEP trials during the establishment year. This variety provides a very dense turf of the highest quality.
Firecracker LS	50 lb	Highly dense, among the finest, w/ Lateral Spread technology, promoting greater tolerance to stress & improved recuperation from wear.
Hot Rod	50 lb	NEW! Hot Rod is a newly released variety exhibiting chart topping performance in the latest NTEP trial. Beautiful, deep green, dense and lower growing.
Sunset Gold	50 lb	Reliable performance under high or low maintenance, dark green, highly attractive.
3rd Millennium SRP	50 lb.	SRP (self-repair potential) due to spreading rhizomes. Brown patch resistant, darker, finer, excellent drought, shade & wear tolerance.
Titanium LS	50 lb	Elite performance. Dense, dark, persistent, excellent brown patch resistance. For sun or shade.
Turbo	50 lb	Top rated variety with excellent color, vigor and brown patch resistance. For sun or shade.
Triumph Tall Fescue Blend	50 lb	Mixture of top performing varieties. Wear tolerant, drought tolerant, attractive dark green turf. Does well in sun or shade.
Triumph Tall Fescue Blend	25 lb	

RYEGRASSES	UNIT	New Lawns 6-7 lbs./1000 sq. ft., overseeding use half rate.
Annual	50 lb	Fast to establish, no undesirable grass seeds. Good for stabilization.
Annual	5 lb	Same item in a smaller size for home use.
Apple GL	50 lb	Bred for resistance to gray leaf spot, exhibits broad spectrum disease & insect resistance. Improved salinity tolerance. Vigorous and aggressive.
Evening Shade	50 lb	Attractive and reliable, fast to establish. Dark green, good disease resistance. Consistent and reliable.
Manhattan 5 GLR	50 lb	The newest improved version of the Manhattan family, offering resistance to gray leaf spot.
Steller 3GL	50 lb	Highly NTEP rated, gray leaf spot resistance, improved heat/drought tolerance. Dark green, dense and attractive under traffic and stress.
Perennial Ryegrass, VNS	50 lb	Fast to germinate and establish.
Pangea GLR	50 lb	Chart topping performance, heat and drought tolerant, dark green, resistant to grey leaf spot.
Triumph GLR Rye Blend	50 lb	Mixture of top performing 'GLR' varieties. Very high quality.
Triumph GLR Rye Blend	25 lb	Mixture of top performing 'GLR' varieties. Very high quality.
V I P 3 Blend	50 lb	A mixture of fine textured varieties that rapidly establish a beautiful turf for new lawns & overseeding.
V I P 3 Blend	25 lb	
V I P 3 Blend	10 lb	A mixture of fine textured varieties that rapidly establish a beautiful turf for new lawns & overseeding.
V I P 3 Blend	5 lb	
V I P 3 Blend	3 lb	A mixture of fine textured varieties that rapidly establish a beautiful turf for new lawns & overseeding.
V I P 3 Blend	1 lb	

CREEPING BENTGRASS	UNIT	New lawn 1-2 lbs./1,000 sq. ft., overseeding use half rate.
-------------------------------	-------------	--

Barracuda	25 lb	Aggressive, darkest green, excellent disease resistant, champion turf.
------------------	-------	--

MISCELLANEOUS	UNIT	These items are sold by the lb. and packed as needed.
----------------------	-------------	--

Alkaligrass Saltonse	Lb.	An improved alkaligrass for roadside seeding and for areas with high pH. Seeding Rate: 3-4 lbs./1000 sq. ft.
Big Bluestem	Lb.	15 lbs. per acre - tall (4-5 ft) native prairie grass, mixed or pure stands on well drained soils.
Birdsfoot Trefoil	Lb.	10-15 lbs per acre. Will tolerate dry or poorly drained, infertile soils. Slow to establish.
Crown Vetch	Lb.	25-30#/A with an equal amount of annual rye as a nursegrass. Great stabilizer once established.
Indiangrass	Lb.	15 lbs. per acre - tall (5-7 ft.) native prairie grass for low maintenance areas. Plume-like seedhead.
Little Bluestem	Lb.	15 lbs. per acre - native prairie grass for upland or lowland areas, 1-3 ft. tall. Attractive russet-red fall color.
Sabre 3 Poa trivialis	Lb.	Attractive dark green turf for damp shaded areas only.
Redtop	Lb.	10 lbs./acre - tall, low maintenance grass for damp areas.
Switchgrass	Lb.	15 lbs./A - tall (4-5 ft) native prairie grass. Drought tolerant but prefers moist sites. Great for conservation.
White Clover	Lb.	15 lbs./A - tall (4-5 ft) native prairie grass. Drought tolerant but prefers moist sites. Great for conservation.
Wildrye, Virginia	Lb.	20 lbs./A. Cool season native perennial, fast to establish. 2-4 ft tall, sun or shade, tolerant of moister sites, very cold tolerant.
Wildflower, Northeast Mixture	Lb.	5-10 lbs. Per acre - a mixture of perennials and annuals for beautiful low maintenance areas.

CONSERVATION MIXTURES

Conservation plantings need not be complicated or outrageously expensive. Our Conserve Mixtures are sensible, easy to use and provide sturdy, reliable performance under the most demanding conditions.

UNIT

<p>Conserve Bio Swath Mix</p> <p>For ecologically sensitive areas requiring a quickly establishing lower growing cover designed for long term low maintenance performance under varying conditions. Ideal for use around solar panels or on wind farms.</p>	<p>Lb.</p>	<p style="text-align: right;">Analysis:</p> <p>55% Hard Fescue, 15% Chewings Fescue, 15% Creeping Red Fescue, 10% Barley or Oats, 5% Alsike Clover</p> <p style="text-align: center;">Seeding Rate: 100 lbs./acre</p>
<p>Conserve High & Dry Mix</p> <p>For revegetating and stabilizing low maintenance, infertile sites with dry soils, such as reclamation areas, golf course roughs, roadsides, landfills, and parks. Provides food and shelter for small wildlife.</p>	<p>Lb.</p>	<p style="text-align: right;">Analysis:</p> <p>55% Tall Fescue, 19% Hard Fescue, 10% Switchgrass, 10% Per Rye, 6% White Clover</p> <p style="text-align: center;">Seeding Rate: 150 lbs./acre</p>
<p>Conserve Lowland Mix</p> <p>This reclamation mixture is designed for sites with moister soils, including areas that are seasonally very damp. It is not for areas prone to frequent and prolonged standing water.</p>	<p>Lb.</p>	<p style="text-align: right;">Analysis:</p> <p>55% Tall Fescue, 25% Poa trivialis, 10% Perennial Ryegrass, 10% Redtop</p> <p style="text-align: center;">Seeding Rate: 150 lbs./acre</p>
<p>Conserve Pollinator Meadow Mix</p> <p>Refresh and reclaim the landscape and add a splash of color with naturalized North American native perennial wildflowers that will develop into a beautiful & diverse perpetual meadow, providing food and habitat for wildlife, pollinators, hummingbirds. Best in full sun, requiring little to no maintenance.</p>	<p>Lb.</p>	<p style="text-align: right;">Analysis:</p> <p>24% Oxeye Sunflower, 24% Perennial Lupine, 19% Purple Coneflower, 9% Black-Eyed Susan, 6% Lance-Leaved Coreopsis, 6% Oxeye Daisy, 6% Scarlet Sage, 6% White Yarrow</p>
<p>Conserve</p> <p>This widely adaptable prairie grass mixture, while slow to establish, will ultimately provide a native grass stand that is ideal for stabilizing low maintenance, infertile sites while providing habitat for wildlife.</p>	<p>Lb.</p>	<p style="text-align: right;">Analysis:</p> <p>35% Little Bluestem, 25% Indiangrass, 19% Hard Fescue, 15% Big Bluestem, 6% Switchgrass</p>
<p>Conserve Low Maintenance Basin</p> <p>An economical option designed for reliable site stabilization and vegetation in areas that are alternately wet and dry, on low maintenance, infertile sites.</p>	<p>Lb.</p>	<p style="text-align: right;">Analysis:</p> <p>50% Tall Fescue, 18% Hard Fescue, 10% Perennial Rye, 10% Creep Red Fescue, 6% White Clover, 6% Redtop</p> <p style="text-align: center;">Seeding Rate: 150 lbs. /acre</p>
<p>Conserve Wetland Mixture</p> <p>This mixture is designed to provide an attractive persistent cover in sensitive wetland areas and requires a high amount of moisture to thrive. It is not suitable for areas that are very dry seasonally.</p>	<p>Lb.</p>	<p>Species such as: Wild Rye, Sensitive Fern, Milkweed, Cutgrass, Woolgrass, Tearthumb, Hop Sedge, Am Mannagrass, Rattlesnake Grass, Bur-Reed, Fringed Sedge, Soft Rush, Nodding Bur Marigold, Shinning Aster, Purple Stem Aster</p>

SEEDING AND LAWN CARE SUPPLIES

PROFESSIONAL GRADE	UNIT	Always read and follow the manufacturer's instructions. rates below are only a guide will vary based on site conditions.
Prof. 24-5-11 w/50% NS-54 3% Fe 4.86% Sulfur		
Covers 12,500 sq. ft. 45 per pallet	50 lb.	50% NS-54 polymer coated sulfur coated urea (controlled release nitrogen, plus iron & sulfur).
Prof. 24-0-11 w/50% NS-54 3% Fe 4.86% Sulfur		
Covers 12,500 sq. ft. 45 per pallet	50 lb.	Phosphorous free. 50% NS-54 polymer coated sulfur coated urea (controlled release nitrogen, plus iron & sulfur).
Prof. Weed & Feed 16-0-8 w/Escalade/25% Poly-S		
Covers 12,000 sq. ft. 55 per pallet	40 lb.	Phosphorous free fertilizer plus broadleaf weed control with Escalade (2,4-D, fluroxypyr, dicamba) & poly coated slow release nitrogen.
Prof. 19-0-6 w/.164 Dimension, 25% NS-54		
Covers 12,000 sq. ft. 45/pallet	50 lb.	Pre & early post-emergent control of crabgrass. Also controls or suppresses many other grassy & broadleaf weeds.
Prof. 18-0-5 w/.225 Allectus		
Covers 17,800 sq. ft. 45 per pallet	50 lb.	Allectus controls both subsurface & surface insects. Not for golf courses & sod farms. Imidacloprid & bifenthrin.
Prof. 18-24-12 w/25% NS-54		
Covers 12,500 sq. ft. 45 per pallet	50 lb.	Designed for new and over-seeding, contains 25% controlled release nitrogen for extended feeding, high phosphorous for root development.
19-19-19 (Low Stone)		
Covers 10,000 sq. ft. 50/pallet	50 lb.	Specially formulated for hydroseeding due to a low stone formulation.
10-10-10		
Covers 5,000 sq. ft. 50/pallet	50 lb.	Multipurpose fertilizer, good for starting lawns, and for fertilizing gardens and flower beds.
10-20-20		
Covers 5,000 sq. ft. 50/pallet	50 lb.	Multipurpose fertilizer, good for starting lawns, and for fertilizing gardens and flower beds.
5-10-5		
Covers 2,500 sq. ft. 50/pallet	50 lb.	Multipurpose fertilizer, good for starting lawns, and for fertilizing gardens and flower beds.
FORTIFY LAWN CARE PRODUCTS	UNIT	Always read & follow the manufacturer's instructions. Rates below are only a guide will vary based on the site.
Fortify Above & Below Grub & Insect Control		
Covers 6,000 sq. ft. 100 per pallet	12 lb.	Bifenthrin + Carbaryl. Apply spring & summer. Preventative & curative, surface pests & grubs.
Fortify New Lawn Starter 12-16-8		
Covers 5,000 sq. ft. 120 per pallet	16 Lb.	Specially formulated fertilizer ideal for starting new lawns.
Fortify 20-0-4 Phosphorous Free Crabgrass Preventer		
Covers 6,000 sq. ft. 120 per pallet	17 Lb.	Contains .103% Dimension for crabgrass control and 6% controlled release nitrogen for extended feeding.
Covers 16,000 sq. ft. 45 per pallet	45 Lb.	

FORTIFY LAWN CARE PRODUCTS - Continued	UNIT	Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
---	-------------	--

Fortify 21-0-7 Lawn Food

Covers 5,000 sq. ft. 120 per pallet	16 Lb.	Phosphorous free lawn food. Provides quick, deep greening. Contains 6.3% controlled release nitrogen.
Covers 15,000 sq. ft. 45 per pallet	48 Lb.	

Fortify 22-0-3 Phosphorous Free Weed & Feed w/Dissolve

Covers 5,000 sq. ft. 120 per pallet	18 Lb.	Contains Dissolve for post-emergent control of over 140 broadleaf weeds. 3.3% controlled release nitrogen.
Covers 15,000 sq. ft. 45 per pallet	54 Lb.	

Fortify 29-3-4 Lawn Food

Covers 5,000 sq. ft. 117 per pallet	16 Lb.	Fertilizer for a quick, deep greening. Extended feeding from 9.2% controlled release nitrogen. While supplies last.
--	--------	---

Fortify 18-0-12 Phosphorous Free Winterizer

Covers 5,000 sq. ft. 120 per pallet	16 Lb.	3% slowly available nitrogen, iron and sulfur. Stimulates root growth and promotes hardiness.
--	--------	---

Fortify Season Long Grub Control w/Merit

Covers 5,200 sq. ft. 120 per pallet	15 Lb.	Apply April - mid June to control grubs with Merit Insecticide. Preventative.
--	--------	---

Fortify Lawn Weed Control Granules

Covers 10,000 s. ft. 100 per pallet	20 Lb.	Broadleaf weed control w/Trimec on a specialized carrier that stays on weeds for improved control.
--	--------	--

Pet Safe Lawn Food

Covers 5,500 sq. ft. 120 per pallet	16 Lb.	Safe to walk on immediately after watering in as it quickly dissolves into roots. Phosphorous Free, 45% MuTech Slow Release Nitrogen.
--	--------	---

LIME PRODUCTS		Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
----------------------	--	--

Cal Turf Pro Pelletized Limestone w/Chelating Agent

Covers Up to 10,000 sq. ft. 50 per pallet	50 Lb.	50 lbs covers up to 10,000 sq. ft. Maintenance rate 220 lbs/acre, corrective rate 500 lbs/acre. Fast acting, immediate results.
---	--------	---

Pelletized Pulverized Calcitic Limestone

Covers Up to 2000 sq. ft. 70 per pallet	40 Lb.	For new planting, 2,000 lbs per acre. For maintenance, 1000 lbs./acre.
---	--------	--

Guideline Athletic Field Marker

70 per pallet	50 Lb.	White crushed calcium carbonate. Will not harm soil or vegetation.
---------------	--------	--

NeutraLime Dry Hydroseeding Lime

40 lbs/ace 48 cases per pallet	4/10 lb. Bags	Quickly improves soil pH in the seed germination zone, mixes easily in the tank. Mixing ratio: 4 lbs./300 gallons of water.
-----------------------------------	---------------	---

CONTROL PRODUCTS	UNIT	Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
-------------------------	-------------	--

WEED CONTROL

Barricade 0.48% on DG Pro		
Covers 14,200 sq. ft. 45 per pallet	50 Lb.	Preemergent control of crabgrass and other listed annual grasses and broadleaf weeds. Contains prodiamine.
Tupersan 4.7% Granules		
Covers 8,000 sq. ft. 98 per pallet	20 Lb.	Provides preemergent control of crabgrasses and other listed annual grassy weeds on newly seeded lawns. Contains siduron.
Trammel 5% on DG Pro		
Covers 22,000 sq. ft. 55 per pallet	40 Lb.	A selective, preemergent herbicide (Trifluralin) for many grasses several broadleaves fro approx. 60 days. Not for turf use. 80 lbs./acre.
Snapshot on DG Pro		
Covers 7,100 sq. ft. 84 per pallet	25 Lb.	Selective pre-emergent herbicide (Trifluralin + Isoxaben) for pre-emergent control of broadleaf & annual grasses in ornamental and nursery plantings for 6-8 months. Not for sale in NY.
Weed Beater Ultra Concentrate Liquid		
Covers 10,500 sq. ft.	1 Pint	Systemic broadleaf weed killer for over 200 lawn weeds. Rainfast once dry. Reseed in just 2 weeks! Superior in cool weather down to 45°F. Non 2, 4-D formula contains MCPA, Mecoprop-p, Dicamba and Carfentrazone.
Covers 84,000 sq. ft.	1 Gal.	
Sedge Ender Concentrate Liquid		
Covers 5,800 sq. ft.	1 Pint	Kills yellow nutsedge, crabgrass & other listed grassy weeds. Contains sulfentrazone & prodiamine.
Weed Beater Complete Granules		
Covers 5,200 sq. ft.	10 Lb.	Pre- & post-emergent systemic control of grassy & broadleaves incl. CRABGRASS, nutsedge, goosegrass, ground ivy, & others. Contains Prodiamine and Sulfentrazone. Not for sale in NY.
Kleen Up Concentrate Liquid		
Covers 6,300 sq. ft.	1 Quart	Kills weeds and grasses. Great for preparing flower beds, vegetable/ornamental gardens, renovating lawns. Can reseed in 7 days. Complete, "to-the-root" control in 2 - 4 weeks. One gallon makes 84 gallons of spray and treats 25,200 sq. ft. Glyphosate 41.0% with surfactant.
Covers 63,000 sq. ft.	2.5 Gal.	

INSECT CONTROL

DuoCide G on DG Pro		
Covers 20,000 sq. ft. 50 per pallet	40 Lb.	Contains Bifenthrin and Carbaryl for broad spectrum multi-mode insect control - above & below ground, preventative & curative.

FUNGICIDE & MOSS CONTROL

Mossmax Lawn Granules		
Covers 5,000 sq. ft.	20 Lbs.	Kills lawn moss quickly, turns lawns a deep green. 23.34% Ferrous Sulfate Monohydrate.
Infuse Systemic Disease Control		
Covers 400-1300 sq ft	1 pint	Systemic fungicide, prevents & controls diseases such as dollar spot, brown patch, & red thread. Contains propiconazole. Coverage depends on targeted disease so see label for details.

BLANKETS & STAPLES	UNIT	Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
-------------------------------	-------------	--

ECS-1 Blanket 20 per pallet	7'6" x 120'	Single net straw blanket, 100 sq. yds. For average application, use 160 staples per roll.
ECS-1AA Blanket 20 per pallet	3'9" x 120'	Single net straw, 50 sq. yds., . For average application, use 80 staples.
ECS-2 Blanket 20 per pallet	7'6" x 120'	Double net straw blanket, 100 sq. yards. For average application, use 160 staples per roll.
F4 NetlessBlanket 32 per pallet	39" x 90'	Netless wood fiber blanket protects seed & soil, dyed dark green. For average application, use 65 staples per roll.

Blanket Staples, Steel

1000 per case 50 cases per pallet	11 gauge steel staples, 6" long, 1" wide. For average application use 2 per square yard or 160 per 100 square yard roll.
200 per pack	

Blanket Staples, Biodegradable

500 per case 72 cases per pallet	Biodegradable blanket staples, 4" long. For average application use 2 per square yard.
25 per pack	

Steel Staple Applicator

Install blankets without bending to apply metal blanket staples. Simple, sturdy design.

Biodegradable Staple Applicator

For application of our biodegradable staples.

MULCHES & ACCESSORIES		Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
----------------------------------	--	--

Seed Aide Mulch Pellets 50 lbs.1,000 sq. ft.	50 lb.	Easy to apply mulch pellet protects the seed bed, improving soil to seed contact, retains more than 5 times its weight in water. 40 bags per pallet.
Flexterra HP- FGM 3,000 lbs/acre	50 lb.	High performance flexible growth medium. Immediately effective, bonds directly with soil. 40 per pallet. 50 lbs. /125 gallons of water.
HydroBlanket BFM 3,000 lbs./acre	50 lb.	Bonded fiber matrix for steep rough sites. 40 per pallet. 50 lbs./125 gallons of water.
Seed Aide Cover Grow 75 lbs./1,000 sq. ft.	40 lb.	Dry apply or hydroseed. 60 lbs/100 gal water, 1500 lbs/acre. Pellets expand to protect soil & seed. Wood, cellulose, & tackifier. 48 per pallet.
Terra Mulch Cellulose 2000 lbs/A	50 lb.	Processed newspaper, less fines reduces mache effect, mixes fast, stays in suspension, dark green. 40 per pallet. 50 lbs./100 gallons of water.
Terra Mulch Blend 1,500 lbs./acre	50 lb.	Better erosion control than paper, holds more water than wood mulch. With UltraGro BioStiumulant. Dark green. 40 per pallet. 38 lbs./100 gallons of water.

SEEDING SUPPLIES		UNIT	Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
-------------------------	--	-------------	--

Fiber Lock 72 cases per pallet	10 lb. case		Crimped fibers increases the strength of the mechanical bond for superior erosion control. Increases the shooting distance. 10 lbs./acre.
Floc Loc (PAM) 36 bags per pallet	40 lb.		Polyacrylamide for a viscous slurry, improves shooting distance & suspension. Use 3 lbs./A (straw tacking use 5-7#/A), 0.3 lbs/300 gal. of water.
Jump Start 5 48 cases per pallet	4/10 lb. bags		Soil penetrating agent, humic acid and over 200 species of beneficial soil bacteria, for a faster & stronger start. 25 lbs/acre.
SlikColor Dye 36 cases per pallet	2/11 lb. Bags		For curb appeal & to assist in application. PAM added to act as a hose slickifier to increase shooting. 0.3 lbs./300 gallons of water.
Terra Mulch Tacking Agent 3			
80 bags per pallet	25 lb.		No cure time. Contains polyacrylamide. Hydro-colloid polymers enhance soil-fiber bond, reducing erosion/runoff. Increases mulch water holding capacity. W/marker dye. 3 lb. Bags is water soluble. 30 lbs./acre, 3 lbs/300 gallons of water.
56 cases per pallet	7/3 lb. Bags		

SOIL AMENDMENT		UNIT	Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.
-----------------------	--	-------------	--

Humic DG 50/pallet	40 lb.		Clean, dry pellet restore soil balance. Can increase root growth, chlorophyll content, nutrient uptake. Turf, nurseries, gardens. 40#/20,000 sq ft at med rate.
---------------------------	--------	--	---

Code		TURFACE	UNIT	Always read and follow the manufacturer's instructions as the application will vary based on site conditions.
-------------	--	----------------	-------------	---

Field & Fairway 40 bags per pallet	50 lb.		Topdressing and construction material. Incorporate in rootzone to add porosity, prevents compaction and muddy conditions.
MVP 40 bags per pallet	50 lb.		Conditions infields to reduce compaction. Incorporate in soil, topdress after aerification, or rototill into soil before planting.
Moundmaster 38 bags per pallet	8 blocks/bag		For superior pitching & batting surfaces. High quality red packing clay in ready to use 2.5" x 4"x8" blocks. Use approx. 150 for mounds, 225 for batters box.
Quick Dry 40 bags per pallet	50 lb.		Quickly eliminates puddles and standing water. Long lasting, prevents future standing water. Will not cake, harden or blow away.

LANDSCAPE FABRIC & SAFETY FENCE		UNIT	Always read and follow the manufacturer's instructions as the application will vary based on site conditions.
--	--	-------------	---

Pro Steel Plus			
3 ft. x 300 ft.	Roll		Spunbound polyester fibers providing exceptional UV stability and outstanding water & air permeability. This spunbound fabric serves as an excellent weed barrier and filter with strength characteristics that make this superior in underlayment applications, behind retaining walls, under pipes, under patios, sidewalks, flower beds and mulched areas.
4 ft. x 300 ft.	Roll		
6 ft. x 300 ft.	Roll		
Extruded Orange Barrier Fence	Roll		

FARM SEEDS

CLOVERS

UNIT

Alsike	50 lb	Good for wet/acid soils. NOT for horses, 6-10 lbs./acre.
Crimson	50 lb	Winter annual for cover or plowdown, 12-18 lbs./acre.
Ladino, VNS	50 lb	Giant white clover for pastures and hay 4-6 lbs./acre.
Ladino, Jumbo	50 lb	Very high yields, high protein content, fast and vigorous growth, very large leaf size. 4-6 lbs./acre.
Medium Red, VNS	50 lb	Widely used for hay & pasture, 8-12 lbs./acre.
Yellow Blossom Sweet	50 lb	Cover crop and used for hay & pasture, 15-25 lbs./acre. Limited quantities.

FORAGES

UNIT

Bluegrass, Forage	50 lb	High yielding forage bluegrass, 10-15 lbs./acre.
Bromegrass, Smooth	50 lb	For pasture, silage, or hay, 15-20 lbs./acre.
Forage Plus Oats	48 lb.	48 lb. bag. An oat variety designed specifically for forage use. Seeding rate = 100 lbs/acre.
Pea/Oat Mixture	50 lb	Forage oat & pea mix, plant alone (150 lbs./acre) or as companion with alfalfa (120 lbs./acre).
Festulolium	50 lb	Hay or pasture, drought tolerant, 20 lbs./acre.
Orchardgrass, Amba	50 lb	Med. - early growth w/high yields of dry matter & excellent forage quality. Highly digestible, very winter hardy. 10-15 lbs./acre.
Orchardgrass, Endurance	50 lb	A highly productive variety, well suited to grazing. Med./late maturity. Highly digestible, very winter hardy. 10-15 lbs./acre.
Orchardgrass, Niva	50 lb	Medium late variety offering excellent disease resistance, high dry matter yield, very winter hardy.
Orchardgrass, Potomac	50 lb	Earlier maturing orchardgrass, 10-15 lbs./ace. Limited supply.
Ryegrass, Annual Forage	50 lb	Endophyte free forage-type annual ryegrass, 25 lbs./acre.

FORAGES	UNIT	
---------	------	--

Ryegrass, Perennial Forage	50 lb	Good protein source, compatible w/legumes, 25 lbs./acre.
Tall Fescue, Estancia	25 lb	High forage quality/dry matter production, improved persistence & heat/drought tolerance due to ArkShield smart endophyte - all natural & non-toxic.
Tall Fescue, Savory	50 lb	Soft leaved, highly palatable, excellent forage quality & persistence. Highly productive, no endophyte. Seeding rate: 12 lbs./acre.
Timothy, Tuukka	50 lb.	Winter hardy, leafy, high quality forage with rapid regrowth after cutting and rapid start of growth in the spring, but with a later maturity date than Climax.
Timothy, Climax Select	50 lb	Later maturing, good w/grasses & legumes, 8-10 lbs./acre.
Promesse Timothy	50 lb	Earlier mat than Climax, for 3-4 cut systems, 8-10 lbs./acre.
Vetch, Hairy	50 lb	Winter annual cover crop, 15-20 lbs./acre.

GRAIN SEED	UNIT	
------------	------	--

Barley - 120 lbs. per acre		
Thorobred	48 lb	Bearded, medium tall, medium maturity, very good test weight, excellent straw strength.
Nomini	48 lb	Awnless, medium height, medium/early maturity, very good test weight, excellent straw strength.
SB 151	48 lb	Early maturity, tall height with excellent standability, excellent winter hardiness and disease resistance. Superior yield. Average test weight.
Buckwheat 40-55 lbs. per acre		
Buckwheat	50 lb.	To produce mature grain plant 12 weeks prior to first frost. Can be planted in spring or fall as a cover crop
Oats - 96 lbs. per acre		
Armor	64 lb	Medium maturity, medium height, excellent straw strength, excellent yield, excellent test weight.
Rye - 168 lbs.per acre		
Rye	56 lb	Winter annual for grain and plow-down.

GRAIN SEED		
Continued	UNIT	
Triticale - 100 lbs. per acre		
Triticale (Spring)	50 lb	This wheat-rye cross is higher in protein than either of it's parents. Very hardy, does well on poorer soils.
Soft Red Winter Wheat - 150 lbs. per acre		
MBX 14-S-210	50 lb	Chart topping yields. Consistent in all weather. Strong scab tolerance. Bearded. Medium height, medium maturity.
SW 57SR	50 lb	Medium maturity, medium-tall height, excellent bushel weight, scab resistant.
SW 52	50 lb	An early variety with excellent test weight, medium height, and excellent straw strength.
SORGHUM & SUDAN		
	UNIT	
Grain Sorghum	50 lb	Medium maturity, high grain yield (bronze), Concep treated, 44-48" tall, seeding rate 6-10 lbs./acre.
Forage Sorghum	50 lb	Dense, lush, large grain head, medium height (5-7 ft.), Concep treated, seeding rate 6-12 lbs./acre.
BMR Sorghum/Sudan Hybrid	50 lb	Brown mid-rib, improved digestibility, improved palatability. Seeding rate 25-35 lbs./acre.
Sorghum/Sudan Hybrid	50 lb	High yield, very fast re-growth, for grazing or green-chop. Seeding rate 25-35 lbs./acre.
Sudangrass	50 lb	4-6' tall, quality forage when hot & dry, leafy, fine stems, rapid re-growth. Seeding rate 20-25 lbs./acre.
ALFALFA		
	UNIT	Seeding Rate: 15-20 lbs. per acre
Cimarron VL400	50 Lb	Increased yield & persistence due to VigorLock Breeding. Larger leaves, finer stems, excellent forage quality, disease resistance.
WL 352 LH/RR	50 Lb.	High yielding, Roundup Ready, excellent quality under heavy leafhopper pressure. Superior digestibility. Price includes \$134.00 tech fee.
Hybriforce 2400 & 2420 Wet	50 Lb.	Hybrid varieties. Consistently superior performance that is more pronounced as the stand matures.
Magnum VI	50 Lb.	Branch rooted with excellent disease resistance, tolerant of wetter soils, grazing, traffic.
Magnum 7	50 Lb.	Excellent yields of high quality forage, excellent disease resistance, fine stemmed, very good re-growth.
FSG 420 LH	50 Lb.	Highly resistant to leafhoppers and all major alfalfa diseases. High yielding with good forage quality. Good winterhardiness.

SEEDING RATE: 25 - 50lbs./acre. Allow the plants to reach 6-8" before grazing. Rye or oats can be used as a nursegrass (1 bu/acre).	
PASTURE MIXTURES	UNIT

Horse Pasture Mixture: For horses, sheep, goats, llamas & any ruminants. The bluegrass is high yielding and nutritious. Tetraploid perennial ryegrass is a good protein source, brome is nutritious & palatable even under dry conditions, timothy provides high quality forage under continuous grazing. Also used for hay production.

50 Lb.	Analysis: 30% Forage Kentucky Bluegrass 25% Forage Perennial Ryegrass 20% Orchardgrass
25 Lb.	20% Timothy 5% Smooth Bromegrass

Wetland Pasture Mixture: Suitable for poorly drained areas. DO NOT USE FOR HORSES. Reed canarygrass is palatable & has good re-growth potential Timothy provides a high quality forage. Alsike clover does well on wet soils & has good re-growth. Ladino clover, a large white clover, does well in high moisture situations.

50 Lb.	Analysis: 50% Reed Canarygrass 32% Timothy 12% Alsike Clover 6% Ladino Clover
--------	--

Upland Pasture Mixture: Forage bluegrass is high yielding and nutritious. Timothy provides a high quality forage. Ladino clover is a large with clover that combines well with grasses for a high quality pasture. Red clover is high in protein and energy. A particular favorite of dairy and beef producers.

50 Lb.	Analysis: 40% Forage Kentucky Bluegrass 30% Timothy 24% Red Clover 6% Ladino Clover
--------	--

Intensive Grazing Mixture: Well suited to dairy cattle. Requires clipping to remain palatable if undergrazed. Tetraploid perennial ryegrass is a good protein source. orchardgrass is nutritious & palatable even under tough conditions. Festulolium has great summer re-growth and offers high yield and nutritional value. Alfalfa provides a high quality forage for grazing. White clover rounds out this high quality pasture mixture.

50 Lb.	Analysis: 35% Forage Perennial Ryegrass 20% Orchardgrass, 20% Festulolium 15% Magnum VI Alfalfa
--------	---

Supreme Pasture PLUS Mixture: For horses, cattle, sheep, goats, llamas. Highly productive w/ superior heat & drought tolerance. Featuring Estancia Tall Fescue w/ ArkShield smart endophyte that is natural & non-toxic for superior performance & productivity. Seeding rate: 50 lbs./acre.

50 Lb	Analysis: 60% Estancia Tall Fescue 20% Amba Orchardgrass 14% Forage Perennial Ryegrass 6% Forage Kentucky Bluegrass
-------	--

SEED INOCULANTS		
INOCULANTS	UNIT	
Alfalfa/Clover	1 pack	1 pack treats 50 lbs of seed.
Crown Vetch	1 pack	1 pack treats 50 lbs of seed.
Birdsfoot Trefoil	1 pack	1 pack treats 50 lbs of seed.
Pea & Vetch Special Order	1 pack	1 pack treats 100 lbs of seed.
Soybean	1 pack	1 pack treats 5 bushels of soybeans.

Megabucks Deer Nutrition

MEGABUCKS DEER NUTRITION

Megabucks AGF Minerals

AGF (Antler Growth Formula) Minerals is a premium, concentrated, high calcium-phosphorus mineral/vitamin mix (16% calcium/8% phosphorus). It has vitamins essential to mineral uptake and utilization and is prepared in a granular form to make it easy for deer to eat; and so you can mix it with feed. AGF is formulated for maximum antler growth, not just for baiting. It has just enough salt to make it tasty (25%) so that bucks will get more concentrated minerals to grow big trophy racks. Added flavors from natural foods are used to help cover bitterness so that we don't have to dilute it with salt.

Megabucks Trophy Deer Clover Seed - 25 lb. & 6 lb. bag.

Deer love it, it pulls them in, and it provides the protein-rich summer diet essential for large, heavy beamed trophy antler growth. This blend of 3 perennial varieties, each with its own special characteristics. It's the best deer clover blend that you can buy. It comes in quick, develops well even under heavy grazing, lasts for years, and it isn't coated to increase its weight - you get 45-50% more in each pound of Brown's Megabucks Deer Clover Seed. It's ready to plant - inoculated with nitrogen fixing bacteria for a fast start and heavy crop. Brown's Megabucks's Deer Clover will tolerate some pretty tough conditions. It does well in almost any climate where agriculture is practiced. It is somewhat shade tolerant but the more sun it gets the faster it grows. Plant it spring or fall at a rate of 6 lbs. per acre.

Megabucks Rut Nuts Trophy Feed - 50 lb. bag

Brown's Megabucks Rut Nuts is a 3-season trophy feed supplement containing 30% protein and 30 lbs. per thousand lbs. of Brown's Megabucks AGF (Antler Growth Formula) Minerals, for superior antler growth. The fat content is 10% for fall rutting energy, and we've added the extra vitamins for rutting vigor and breeding success. Extra calories, protein, and minerals turn winter feed grains into top quality trophy feed. Pellet form makes it easy for deer to eat and simple to mix with grains. Brown's Megabucks Rut Nuts has a very nutty flavor irresistible to deer. The aroma and large pellet size help deer find it when scattered in leaves.

Practical Trophy Nutrition- A Hunter's Guide

This book is packed with information not only about nutrition, but also about age, genetics, sex ratios, population, and other trophy factors. It skips the usual dry academic discussions and gives reasons for big antlers in easy to understand terms. It shows simple practical ways to use mineral and feed supplements to develop trophy habits by planting and cutting. It is well illustrated and loaded with photos. A very practical and understandable book.

Megabucks Wildlife Food Plot Mixture - 10 lb. bag

Tempting and nutritious, this easy to grow summer annual mixture adds variety to the diet and complements permanent plots of luscious Megabucks Deer Clover. Plant in the spring after the last killing frost. Ingredients including Forage Soybeans, Sorghum, Millet, Peas, Rye, Jarvis Corn, and Sunflowers. 10 lbs. covers 5,000 sq.

Megabucks Fall Feast Food Plot Mixture - 10 lb. bag

Irresistible and nutritious, this delectable combination of turnips, rape, radish, and sugar beets is a real crowd pleaser. It is easy to grow. Just prepare your soil and plant well before the first killing frost and enjoy the lush and tasty results. Best if planted before September 1st. 5 lbs. seeds 1/2 acre.
